

- The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.
- Indiana's Telephone Privacy law has improved our quality at home and reduced costs of procuring items to screen unwanted calls.
- Indiana's law has been affective in reducing as manay as 14 calls per day, now I only receive one.
- To preempt this law one create undo hardship in terms of privacy, time and cost, and more fraud to the elderly.
